

Formal Invocation of My Constitutional Rights

To All Law Enforcement Personnel:

The following is a formal invocation of my constitutional rights that is directed to the law enforcement officer currently in my presence and/or any other law enforcement personnel that wish to question, arrest, detain, test, seize or search me and/or my property.

I hereby invoke and refuse to waive all of the rights and privileges afforded to me by the US and Arizona Constitutions, including the following:

- I invoke and refuse to waive my Fifth Amendment right to remain silent. Do not ask me any questions.
- I invoke and refuse to waive my Sixth Amendment right to an attorney of my choice. Do not ask me any questions without my attorney present. My attorney of choice is Thomas W. Dean. He can be reached at 602-635-4990.
- If I am under arrest, I invoke and refuse to waive all privileges and rights pursuant to the case *Miranda v. Arizona*. Do not ask me any questions or make any comment to me about this decision.
- I invoke and refuse to waive my Fourth Amendment right to be free from unreasonable searches and seizures. I do not consent to any search or seizure of myself, my vehicle, my home, or any property in my possession.
- I do not consent to this contact with you. Please advise me if I am presently under arrest or investigatory detention. If I am not, I would like to terminate this contact and be on my way with my property.
- I am NOT under the influence of any impairing substance and I refuse to perform any and all sobriety tests that you may request, including portable breath tests, urinalysis and blood tests, field sobriety tests, HGN tests, and any other type of test allegedly used to determine whether I am impaired or have recently consumed marijuana or any other impairing substance. Current research indicates that these tests are inherently very unreliable and subjective and serve only to provide an excuse to law enforcement to arrest me.

Finally, I hereby give notice that any statement I do make or consent I allegedly give in response to your questions was under protest, coercion and duress and was in submission to your claim of lawful authority to force me to provide you with the information or consent that you are insisting that I provide.

Signed:
